

Dear Mr Liew,

Just thought I would send you a wee update and let you know how I am getting on nearly 4 months post-op!

I honestly couldn't be happier, the size is perfect, and everyone has complimented on how natural they look, which is exactly what I was after. I have had NO pain at all, just slight discomfort for the first couple weeks, but that was all. They are perfectly even, sit the same height and have given me the fullness I was desperately wanting. The scars have healed into tiny lines and I'm using bio oil to fade them. I was back doing everything I usually did after 6 weeks, show jumping, running etc and I wasn't even aware of them, it was amazing.

I have invested in a couple of really good sports bras which I wear most days as I am either at the gym or riding, but I have treated myself to a few NON-PADDED (!!!) bras which has been fabulous!! They have made me so much more confident in myself and I cant tell you how relieved I am that I chose you to carry out the op. When researching surgeons, I saw a lot of pictures, and I can easily say that mine are one of the best that I have seen (and I'm not just saying that because they are mine)! Quite a few people have said they are the best BA they have seen, so you are very highly recommended!

Thanks once again,

Amy
Scotland

ps. I measure a 32E
